Wash About Days.

Not house cleaning time, but spot touching fits and such hints and well, kind o' curious but "Quo Vadis," does make one forget that baby swiped the window with its taffy smeared hands. Glints of sunshine points to wintry neglect. Just a sponge for these little touch up spots—house cleaning feelers—and say, we're in the sponge business; chamolins skins kind o' go with 'em you know. So, it's a double game we're playing with our window display. Sponges at any price from one cent to 75 cents. Chamolins skins from the way down big for a nickel piece to \$1, and what whoppers some of 'em are, big enough for a rug.

Our goods are right, we are right, and you'll be right if you buy right, and to buy right buy of us; that's why we write so right about prices. With a sympathetic tear for your house cleaning troubles, I am yours for business.

Somebody Short Changed.

The police force was called upon by Everett Armstrong Saturday evening, who claimed that he had been flim-flammed out of fifty cents by Henry Cislser, the butcher on Washington street. His story of the matter was that he went into the shop and gave the butcher a two dollar bill to be changed and took his change and started away, when Mr. Cislser called him back and told him that he had only given him a one dollar bill. Some argument ensued and he claims that he went to show Mr. Cislser the money he had received in change when he grabbed it at it and succeeded in getting fifty cents away from him.

The officers communicated with Mr. Cislser, who says that Armstrong was trying to work a flimflam or short change racket on him and is still fifty cents ahead.

Cemetery Trustees Meet.

The Board of Cemetery Trustees met for organization at the office of City Clerk Becker Friday evening. The members elect, Messrs. Garrison and Shires, were present and took their seats. The annual report of Superintendent Westgate was received, accepted and ordered presented to Council.

Mr. Shires was chosen president of the organization, and a motion to continue Mr. Westgate as Superintendent was made, but that gentleman refused to accept the appointment unless Mr. Daniel Farrel should be retained as sexton. As this proposition did not meet the absolute approval of the new members, the matter was deferred until next Monday evening. It is thought that the organization will be completed then.

Suit for Payment of Money.

A suit has been filed in Common Pleas Court entitled Louis Bules vs. A. C. Fleming in which Bules seeks to have Fleming ordered to pay him a sum of money previously agreed upon. The matter arises from an agreement in which Bules was to make a deed to Fleming of certain property upon the payment of \$1200. Fleming made one payment of less than one hundred dollars and has never paid anything further. Now Bules has executed the deed and deposited it in the hands of the Court and seeks to compel Fleming to pay the balance due on the contract. Ellenwood, Smith & Leeper are the attorneys for the plaintiff and Nye & Follett for the defendant. It promises to be a suit of much interest.

The Nye Homestead Wanted for Historical Purposes.

The Society known as the Colonial Dames of America want very much to become possessed of the Nye property on Washington street and their representatives here are said to have stated that if the owners will accept what they feel like giving for the property, that a speedy deal will be the result. It is expected that they will receive a reply by next Tuesday from the heirs of the property in New York, and then they will know just what can be done toward getting possession of the desired property for historical purposes.

Death of Harry Slater.

Mr. Harry Slater, a shoemaker, 53 years and 1 month old, died at the home of his brother-in-law, Mr. John Hill, 403 Pearl street, at about five o'clock Saturday evening, April 8, from the effects of softening of the brain. Mr. Slater was born in Philadelphia, was never married and has lived in Marietta for a number of years.

The time of the funeral has not yet been announced, but we understand it will be made in Mound Cemetery.

Pleasant Dinner Party.

One of the pleasantest events of the past week was a dinner party given on Thursday evening by Mrs. S. R. Van Metre, in honor of Mrs. C. J. McIntosh and Mrs. Julia Applegate, of Beverly. About twenty ladies sat down to a delightful repast and enjoyed the discussion of it, and of various topics which naturally arise where so many ladies are gathered.

Suicide of a Well Known Driller.

James E. Davis, of East Brady, Pa., an oil driller known in West Virginia oil fields, committed suicide at the St. James Hotel, Pittsburgh, Friday morning. He shot himself in the right temple and died instantly. The cause of the deed was chronic headache—Sentinel.

Assessor and Road Supervisor.

In response to a persistent clamor of the friends of the successful candidates in the Mile Run precinct to see their names in the newspapers, we herewith announce that Mr. J. M. Davenport was elected Assessor, and Mr. Henry Koon elected Road Supervisor.

A Fine Pup.

Mr. A. L. Smith, the attorney, received from the Dubuque, Iowa, kennels Saturday a fine three months old pup of the Great Dane variety. The dog is a thoroughbred and a fine one in every respect. Mr. Smith is justly proud of his possession.

TERRIBLE

Boiler Explosion at Macksburg.—Clarence McManus Badly Scalded, His Recovery Doubtful.

Special to the Leader.

Macksburg, O., April 8.—A terrible accident occurred on the McManus farm at this place this morning. Mr. Clarence McManus, Sr., who owns the farm and the oil interests, was superintending the work at the wells. A boiler used for pumping the wells burst and the escaping steam and hot water badly scalded Mr. McManus, and it is thought otherwise injured him. He made his way from the scene of the accident without aid, but apparently unconscious, to the Hamilton hotel, where he is being cared for. He is terribly scalded and his recovery is doubtful. His son, Clarence, Jr., arrived on the afternoon train and is at the bedside of the injured man.

The cause of the explosion will probably never be known, as Mr. James Walters who works on the lease had left the boiler house only a few minutes before the explosion. The boiler had been patched up Friday, but whether or not the patching had anything to do with causing the explosion could not be determined. The boiler house was demolished.

The Pop Corn Oil Co., of this city, feel very much elated over the fact that the Myer's well at Chesterhill is showing up so nicely, as they have a lease of 200 acres right up along side the farm on which it is located.

The United States Oil Co. have drilled their Cassidy No. 2 at Moore's Junction through the Berea sand and have a duster. The streak was very thin and made no show of oil worth mentioning.

Their well on the Busch farm, opposite the head of the island, was drilled in Friday and is a very nice producer. The well being drilled on the Cislser farm at the head of Eighth street is progressing finely and they should reach the sand in a very short time now.

The lease of the J. T. Morris tract, in Marion, has at last been secured by H. C. Lord, of Marietta. The consideration is private, but it is known that \$3,000 has been offered for the lease, and it is said that Mr. Morris has been offered \$10,000 cash for his farm.—McConnellsville Herald.

It is a difficult thing for operators some times to change their minds as to the direction of an oil belt after the existence of a pool has once been established. This has been illustrated by lease holders to the northwest of the Seio pool. It has taken about six dry holes and non-paying producers to convince them that an extension does not run in that direction from the old proper. The latest and rankest duster of the whole lot has just been completed by McDonald Co. on the N. S. McLean farm. They got the same information at a lower level than is the rule in that territory and it contained neither gas nor oil. The location is a little more than a mile southeast of the duster on the Walters farm, to the northeast. From opinions expressed it can be gathered that those best informed on the developments are now convinced that the field has seen its end and no amount of drilling will extend the producing limits beyond the dry holes that form a complete circle around the outer edges of the old development. This, however, will not deter the wildcaters from jumping a good distance across the dry holes and trying for a new pool and it is by no means improbable that they will not meet with success. It is quite likely that there are other Berea pools in Southeastern Ohio just as good as the one at Seio.—Derriek.

\$100 REWARD, \$50.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing his work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

River Notes.

There has been a slight rise in the river at his point during the last 24 hours, but it is thought that it is about to the highest point it will reach unless there should come a great deal of rain. The stage here at midnight was 13.2 feet. Sunday boats are the Lorena for Zanesville at 3 p. m. and Queen City at 4 p. m. for Cincinnati. Monday boats will be the Bedford at 6 a. m. for Wheeling and Sun at 8 a. m. for Gallipolis; Virginia at 2 p. m. for Pittsburgh.

Cheap Excursion to Columbus.

Suits to measure are not what they used to be. You now almost get them at prices of ready to wear suits.

Devout priests frequently mortify their flesh and voluntarily force themselves to undergo great bodily hardships and deprivation. They are enabled to do this and escape serious injury to their health by reason of the purity of their lives and the fact that they deny themselves that pleasure of the table. An ordinary man who lives in the ordinary way cannot long endure hardship, deprivation or overwork, unless he takes the right remedy to reinforce nature. The average man when he is in good health eats too much of food. When he gets a little out of sorts he pays no heed and keeps right on "making a hog of himself." In some instances he gets thin and emaciated. In others he gets grossly corpulent, and weighted down with flabby fat. In the first instance he is a candidate for dyspepsia and nervous prostration. In the second for kidney trouble or heart failure. Dr. Pierce's Golden Medical Discovery enables the average man to undergo a great deal of hardship, deprivation and overwork, in spite of the life he leads. It causes the food to be properly assimilated. It builds firm, healthy flesh, but does not make corpulent people more fat. It cures dyspepsia, nervous troubles, kidney disease and 98 percent of all cases of consumption. It prevents weakness in any part of the body. "In August, 1895, I was taken down in bed with a burning and severe pain in my stomach and under my shoulders, and distress in my head," writes Dr. H. Herring, Esq., of Marietta, Volusia Co., Fla. "My home physician said my symptoms were like consumption. Nothing that I ate would digest, and I had great distress in my stomach. I wrote Dr. Pierce for advice, and took four bottles of his 'Golden Medical Discovery' and three of 'Pleasant Pellets.' I am now able to do my work and eat many things that I could not touch before I took these medicines."

An inactive liver and constipated bowels are promptly cured by Dr. Pierce's Pleasant Pellets. They never gripe.

Oil Workers' Union.

Findlay, O., April 7.—A national organization of the Oil Workers union is being formed. Within the past three months, District Organizer Frank M. Treese, of this city, has organized unions here and at North Baltimore, Cygnat, Bowling Green, Lima, Hammondsburg and East Toledo. It is probable the headquarters of the national organization will be located in this city, because of its central location in the oil district. It is proposed to extend the organization of oil workers into the fields of Indiana, Pennsylvania and West Virginia.
